

HG18 & HG24 Donut Glazers

Belshaw's HG glazers allow fast, uniform glazing of donuts, cinnamon rolls and other. These glazers conveniently glaze one full screen at a time with minimal waste.

Glazers are on casters and require little space. A bottom shelf provides storage space for screens and a glaze bucket. A drain valve allows left over glaze to be drained back into a glaze bucket. Stainless steel construction and sound design facilitate cleaning and provide a durable product that will stand up to years of everyday use.

The EZlift method employed by the glazer eliminates the lifting associated with standard hand glazers. Rather than being carried by the operator, the glaze applicator slides along rails, and tilts down to fill up with glaze. This design provides glaze coverage with little strain on the operator.

STANDARD ITEM NUMBERS

- HG18C Item # 22526
- HG18EZ Item # 22529
- HG24C Item # 22534
- HG24EZ Item # 22536

STANDARD FEATURES
